

# AN OPPORTUNITY

I, I really love you,  
But you love, you love all other men  
If you really care for me  
Just give me baby..  
An opportunity

You never loved me baby,  
You only liked my tips  
You've always been a liar  
When my face was on your tits  
I used to pay your kisses  
With bottles of champagne  
And in an hour you were far away... Yeah!

(x 2) I, I really love you,  
But you love, you love all other men  
If you really care for me  
Just give me baby..  
An opportunity

I've been your dirty carpet  
To play on with your heels  
You liked to kiss me baby  
But only by your knees  
So put away your make up,  
STOP your sexy life  
And come away with me tonight

(x 2) I, I really love you,  
But you love, you love all other men  
If you really care for me  
Just give me baby..  
An opportunity

*(Vocal Solo)*

I\_\_, I love you,  
But you love, you love all other men  
If\_\_ you really care for me  
Just give me baby..  
An opportunity  
Just give me baby an opportunity  
Just give me baby an opportunity  
Maybe it will be... you opportunity
